

Physical Specifications

Dimensions (LXWXD)	177 X 252 X 202 mm
Weight	2.5 kg
Display	1.77- inch LCD

Technical Specifications

Areas of Compression	Thigh, calf, and foot
Compression Modes	Uniform and sequential
Compression Pressure	Calf/Thigh: 20, 30, 40, 50, 60mmHg Foot: 120, 130, 140mmHg
Interval time	24, 48 and 60 seconds (selectable)

Safety System

Alarms	Low Pressure, High Pressure, Sleeve not Connected, Battery Low, Battery Depleted, System Error.
--------	---

IP Protection	IP X2
---------------	-------

Power Supply

Mains Power	100-240 V AC, 50-60 Hz
Battery type	Li-ion battery (rechargeable)
Battery Life	Upto 8 hrs

Accessories

Power cord, Extension tube
Sleeves - Uniform (calf/thigh)
Sequential calf/thigh, Foot

Warranty	1 Year

De Thromb

YOUR PARTNER IN VASCULAR HEALTH

Why De Thromb ?

Deep Vein Thrombosis (DVT) is a serious condition where blood clots form in deep veins, typically in the legs. If left untreated, DVT can lead to potentially life threatening complications such as Pulmonary Embolism (PE), Venous Thrombo Embolism (VTE) De Thromb is a cutting-edge solution designed to effectively address deep vein thrombosis (DVT)

Dynamic Compression Technology

Discover our groundbreaking dynamic compression technology designed to prevent Venous Thromboembolism (VTE).

This feature guarantees accurate and efficient compression therapy, enhancing blood circulation and lowering the chances of blood clot formation.

Customizable Therapy Settings

Tailored treatment to each patient's unique needs with customizable therapy settings. Selectable pressure levels and deflation times allow for therapy treatment plans, optimizing comfort and efficacy.

Selectable Modes

Uniform (consistent pressure) and Sequential (gradient pressure) modes help to suit the specific needs of your therapy.

Track Operating Hours

Provision to log pump usage for a particular patient and reset it after therapy
